

## Screen Free Friday!

Fri 1<sup>st</sup> May

After you have completed your spellings, spelling sheets, phonics, tables, mental maths, have some fun away from screens today! Here are some ideas for this week!

1. Gather sticks and twigs. Can you use them to spell out your names or use them to create your initial? You could stick them onto cardboard or tie them together with string or wool.

2. Make a marble run from junk art or lego or blocks. Can you challenge your grown up to use it?
3. Create a treasure hunt in the house. Can you hide an item and make clues or a map to challenge your family to find the item?

4. Learn the skill of Origami, the Japanese art of paper folding. Some ideas and instructions via this website <https://www.origamiway.com/very-simple-origami-for-kids.shtml>  
Fortune tellers are a good one to start with!
5. Do some bird watching or go on a mini-beast hunt in your garden. The birds have been much louder in their singing and lots are building nests and laying eggs. Who can you spot in your garden?
